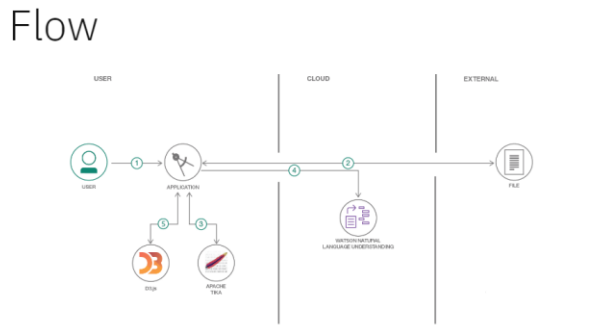
Project Design Phase-II
Data Flow Diagram & User Stories

Date	21 February 2026
Team ID	
Project Name	Darshan Ease
Maximum Marks	4 Marks

Data Flow Diagrams:

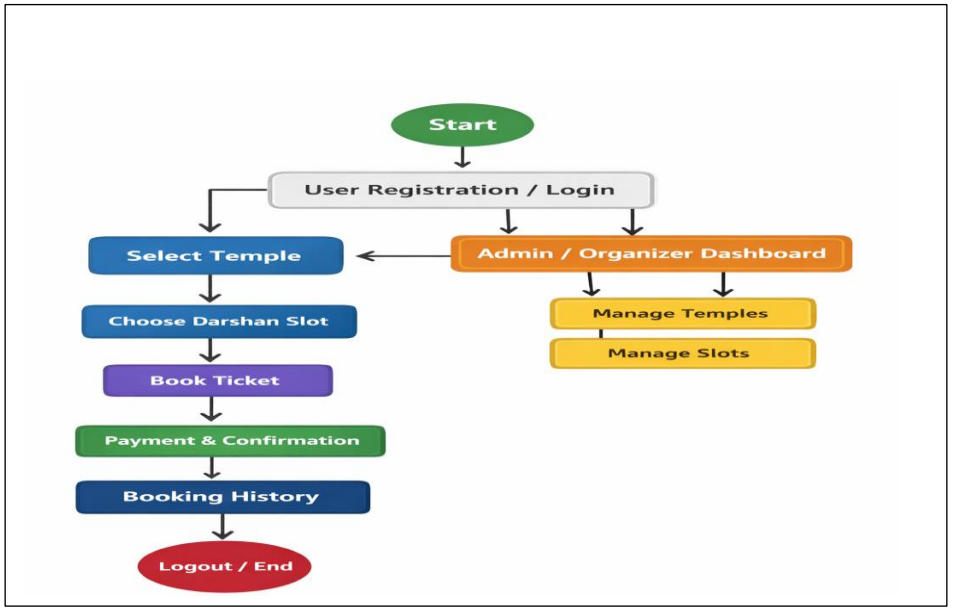
A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [(Simplified)]



1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)



User Stories

Use the below template to list all the user stories for the product.

User Stories – Darshan Ease

(Online Temple Darshan Booking System)

Copy Table

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the aplication by entering my name, email, and password.	User account is created successfully and user can access the dashboard.	High	Sprint-1	Sprint-1
Customer (Mobile user)	Registration	USN-2		User receives confirmation email and activates account.	High	Sprint-1	Sprint-1
Customer (Mobile user)	Login	USN-3	As a user, I will'receive a confirmation email unce I register for the application.	User receives confirmation email and activates account.	High	Sprint-1	Sprint-1
Customer (Web user)	Temple Listing	USN-4		User can login and access the dashboard.	High	Sprint-1	Sprint-1
Customer (Web user)	Slot Booking	USN-5	As a user, I can view available temples for darshan booking.	System displays list of temples with available slots.	High	Sprint-2	Sprint-1
Customer Care Executive)	Booking History	USN-6	As a user, I can book a darshan slot for a	Booking confirmation is generated with date and time.	Medium	Sprint-2	Sprint-2
Administrator (Temple Managemen	Temple Management	USN-7	As a user, I can view-user executive.	Booking confirmation is generated with date and time.	Medium	Sprint-2	Sprint-2
Administrator (Slot Management;	Slot Management	USN-8	As an-admin, I can create and manage.	Temple details are updated successfully in the system.	High	Sprint-2	Sprint-2
Administrator (Slot Management;	Slot Management	USN-9	As an admin, I can create and manage	Admin can create, edit and delete time slots.	High	Sprint-2	Sprint-2
